

Quality Policy

AW Engineering's business is the production of precision engineered components from a variety of Ferrous, Non-Ferrous and Composite Materials.

It is the policy of the company to comply with the requirements of the Documented Quality Management System and it is mandatory for all AW Eng. personnel to comply with the QMS at all times.

The company is committed to comply with the requirements and continually improve the effectiveness of the quality management system.

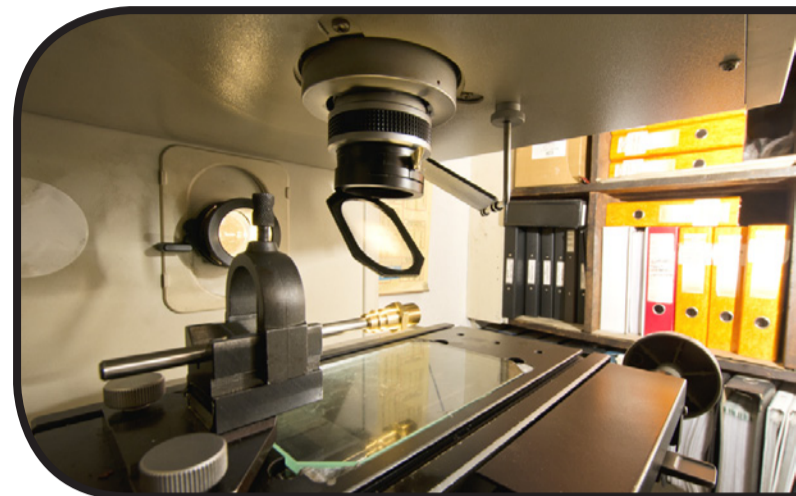

The company's management will take all necessary measures to ensure that the quality policy and company main objectives are understood, implemented and maintained by all personnel throughout the company and that appropriate resources are available for that purpose.

To pursue, where possible a policy of "right first time", to supply products that conform to customer's requirements and to pursue a goal of timely delivery of defect free products through a defect free service.

The continuing suitability of this policy will be considered at each Quality Management Review which will be conducted twice a year.

Mark Felstead
